

**Assessment
& Training
Associates**

Welcome to our new practice!

Supporting families,
supporting children

About us.

Assessment and Training Associates (ATA) is a psychology-led service offering assessments and support to families. We deliver high-quality, informative pieces of work which all parties have had the opportunity to contribute to in a meaningful way.

Why Choose Us?

We appreciate that by the time families have been referred to us, they have likely experienced significant stress and upheaval. Our aim is to help families feel seen, heard, and respected throughout our time working with them.

**Court
reports**

We provide a range of Psychology-led reports to suit the needs of each family. From Brief Focused Assessments to comprehensive Custody Evaluations, every family is catered for.

Consults

ATA can provide Psychology input on complex cases where the wider team has identified a need for consultation. We work collaboratively with stakeholders to ensure child-centred care is the priority.

**Assessment &
Intervention**

In some cases there may be a need to work longer-term with a Clinical Psychologist. ATA can provide direct support at both an individual and group level. Interventions are tailored to the client's needs based on a detailed, strengths-focused assessment.
